
SEASONAL FRUIT

Bring fruit to your holiday table!

More Ideas for Your Next Party or Dinner:

- **Oranges can be wrapped in paper** for a fun "candy bowl" effect. Try it with small mandarin and other easy-to-peel oranges. A bag of clementines is a perfect way to scale up this presentation.
- It's a great idea to **assemble grapes, pomegranates, and persimmons on a wooden platter**. Just add a knife, and people can cut up the persimmons, squeeze out the pomegranate seeds, and take some grapes to make their own personal seasonal platters.
- It's also fun to **rinse apples** in cold running water and set them out crisp and wet on a cake stand. What could be easier or more elegant?

Build a Fruit Tower:

With the holidays fast approaching and the days getting cooler, people often forget how easy it is to incorporate fruit into their parties and dinners.

One great way to bring more fruit to the table is with a fruit tower! This tower makes a fantastic addition to any dessert table, and it's also a festive centerpiece. To make it, assemble grapes, pomegranates, persimmons, and apples in a symmetrical pattern on 1-3 cake stands.
